#### Remarks:

Classic Audio will be working on Delivery of a full restored Beogram 3000 at least 15 hours and test time is more than 4 hours followed by a quality assurance test period of 100 hours and 200 hours for the motor before delivery.

A classic product that has been careful restored to provide a "like new" quality level may have less negligible wear

You can request an upgrade e.g. Cartridge upgrade (Price upon request)

Finish in oak or teak can be delivered – the plint can be re-veneered (price upon request)

Armboard can be delivered with e.g. rosewood top finish (like the plint) (price upon request)

A classic product like the Thorens TD 124 .....

## Best Turntables

Your Vinyl Destination

The **Thorens TD-124** is the king of the idler drive resurgence. Slightly better than the Lenco GL-75 and the Garrard 301, the Thorens TD-124 is truly one of the best turntables of all time.

A key feature of the TD-124 is its motor. It uses a belt to drive its idler wheel, which is a different design concept to other idler drives. The motor itself in the TD124 is not as good as some other motors, but its design is extremely clever and consequently very quiet. The speed is able to be set to 33, 45 and 78 RPM, as well as the outdated 16 RPM. It is able to be adjusted plus or minus 3%
